

SlideRenu[®]

Residential Slide Maintenance Kit*

Kit contains enough product for two applications on a 20' slide.

Included:

- One pint SlideDetergent™ (Degreaser)
- One pint Calcitrol™ (Scale-Remover)
- One pint SlidePolish™ (Compound)
- One pint SlideWax™ (Polymer Wax)
- One pint SlideGloss™ (Spray-on/Wipe-off Finishing Wax)

Instructions:

1. Spray on SlideDetergent™... let sit for 2-3 minutes... scrub with brush or 3M pad. Rinse off.
2. Spray on Calcitrol™... let sit for 2-3 minutes... scrub with brush or 3M pad OR if the scale build-up is extremely heavy, wet-sand with 320-400 grit sandpaper. Be sure to wear gloves and long-sleeved shirt. Rinse off and let dry.
3. Apply SlidePolish™, preferably using a high-speed buffer with a wool pad. After product becomes hazy, buff off using high-speed buffer and foam pad.
4. Apply SlideWax™, preferably using a high-speed buffer with a foam pad. After product becomes hazy, buff off using a high-speed buffer and foam pad.
5. Spray on SlideGloss™ and wipe off with a clean white cloth.

* Please read SDS (available upon request) and Product Data Sheets (enclosed) prior to use.
